## CLIFTON ROAD COMES TO LIFE

Photos and story by Leesa Sutherland

It started with a cow and in the months following, the road from Brunswick to Forrest Highway has become a delight for travellers with a bright, quirky gallery of whimsical characters peeking out from the trees that line the road. This eclectic and one of a kind display is a credit to the creative mind and skillset of local businessman and farmer Scott Talbot.

Scott uses a water jet cutting machine to create the cut outs. Initially made for family driveways, Scott had one cut out left over and made the decision to put it on one of the trees along Clifton Road for passers-by to enjoy.

"By putting something on your own property only you get the enjoyment out of it, but on the road, everyone gets to see it and enjoy it," said Scott.

To date there are two or three types of cow, purple emus, a pink pig, a goat and a donkey, and only recently the addition of two chickens and Daisy the cow with a daisy in her mouth, acknowledging the recent milestone birthday of our famous "Daisy" the cow statue in Brunswick. Scott and partner Sonia have been enjoying positive feedback from the community, both the young and young at heart. Community members are loving them, many commenting that the characters put a smile on their face as they drive past each day.

"These colourful silhouettes are for the people of Brunswick, not for me," said Scott.

A new arrival to keep an eye out for in future months is Loopy the Llama. "Feedback from members of the community with other ideas is always welcome," said Scott.

# MAGGIE'S MUSINGS

MARGRET CARBONE

Hello August! And hello to beautiful Brunswick! Welcome to The Moospaper! Despite the winter weather setting in, there's still lots happening around town and we're here to bring you all the news!

A big thank you is extended to Johanna and Glen Scott and fellow volunteers for organising the Medieval Ball held in July, as a fundraiser for the Milne family who lost their home near Donnybrook in a bushfire in January. Brunswick Hall was transformed into a medieval courtyard complete with stocks, while maidens and princesses, lords and warlocks enjoyed dressing in costume and dancing to both modern and not-so-modern music, all while supporting the worthy cause. The delicious supper was a welcome inclusion!

As we mark the 50th birthday of Daisy, the Cow on the Corner, The Moospaper would like to join the community in thanking the members of Brunswick Lions Club for their continuing care and maintenance of "The Brunswick Cow". Over the years, the Cow has been (against better judgement and advice!) splashed with maroon and gold paint for football finals, adorned with ribbons and bows for Brunswick Show, dressed colourfully, climbed upon, jumped from, danced with, ridden bareback, cuddled, used as a meeting point for friends and romancers.... it seems most locals have a story of antics with our Brunswick girl! And she has been photographed more times than any famous model, by locals and tourists alike! Thank you Brunswick Lions Club, we are proud of our "Brunswick Cow"!

Speaking of maroon and gold, Harvey-Brunswick-Leschenault Football Club have only two home games to play before the commencement of finals in September. The Lions will host Dunsborough on Saturday 12 August, returning to Brunswick Oval the following Saturday to play Collie on 19 August. In round 22, HBL will travel to Hands Oval in Bunbury, to meet traditional rivals South Bunbury in the last round of the season. Finals will begin the following week, with fixtures yet to be announced. So let's cheer on our local Lions!

On a different note, the local Catholic community is preparing to celebrate the annual "Festa" on 15 August. Although the procession through the streets and traditional celebrations have been discontinued since 2020, the parish will hold a special Mass on Sunday 13th August at 8.30am, in honour of Our Lady of The Assumption. This will be followed by morning tea, all welcome.

In news just to hand, it has been announced that the Country Sounds Music Festival will not be held in 2023. After the success of last year's first Country Sounds festival at Brunswick Showgrounds, organisers were hoping to make it an annual event. However, plans are afoot for a bigger and better festival in 2024. Keep an eye on The Moospaper for all the breaking news! Despite this little disappointment for locals, excitement in town is building as preparations are ramped up for Brunswick's next big event, the Brunswick Show. The biggest one-day show in Australia (some say in the Southern Hemisphere!) will be held on Saturday 28 October. The Amateur Brew competition is underway, and entries may be submitted before 1st September at Brewmart in Bayswater, or by 4th September at Lagerland in Bunbury. There are prizes for best brewer and also for best beer, lager, ale, porter/stout, sour and specialty beer. So spread the word and we'll see who will win the honour of having their beer for sale at the 2023 Brunswick Show! And the Italian Sausage Competition will hold a special place this year with the Show's "Farm to Fork" theme. Sausages will be judged at a special event to be held in the lead-up to Show day. For all Show information, including details on how to enter other sections, check out the Brunswick Show website and Facebook page!

Don't you just LOVE Brunswick?!

Happy Birthday

NAIDOC Week (National Aboriginal and Islanders Day Observance Committee) occurs annually in July, and celebrates the history, culture and achievements of Aboriginal and Torres Strait Islander peoples. NAIDOC is celebrated not only in Indigenous communities but by Australians all over the country and overseas. The 2023 NAIDOC theme is For Our Elders - in recognition of the role played by Elders across every generation and the prominent place they hold in our communities and families.

Representatives from the Shire of Harvey joined members of the local community for the NAIDOC Week Yarn at the Brunswick Junction Community Resource Centre on Tuesday, 4 July - one of the free and enjoyable cultural activities hosted by the Shire of Harvey throughout the Shire between Sunday, 2 July and Sunday, 9 July. Highlights of this convivial gathering were the delicious Wattle Seed Cheesecake made by Vicky Hill's daughter Britteny and the stories and wisdom of Elder Ron Gidgup.

## SAWDUST AND BULL DUST: MEN'S SHED NEWS.

Mr. Chris Rutter.

First, the amazing news. We have been successful in receiving a fourteen-thousand-dollar grant from Albemarle to purchase a CNC machine (Computer Numerical Control Router). It's a mouthful I know, but this little beauty will enable us to attempt exciting new projects creating toys, small furniture and signage with a level of precision not available before. Mass production of saleable items is now possible and small community projects more doable. Very exciting. For computer illiterates like me there will be workshops run by the distributors. We are hoping that younger members of the community may be interested in learning how to operate the machine.

We would like to thank the community for their support during our recent wood raffle. We raised over eight hundred dollars.

The Community Resource Centre has approached us to create a Mobile Community Pantry. This is a weatherproof cupboard where community members may leave excess fruit, vegetables and tinned food donations which people can access and withdraw from at no charge. We have been having a great time trawling through Pinterest looking at the ingenious outfits people have created. We have settled on a design which is both colourful and practical.

We have applied for some small grants to purchase a range of battery-operated tools and hand tools so members of the Senior Youth Group can come over to the shed on selected Friday afternoons to try their hand at some simple woodwork under supervision of some Men Shedders. Fingers crossed.

Our ladies' group has celebrated its first year of operation and has over thirty members who are producing a range of useful articles and making contributions to shed management. Speaking of ladies, our local Country Women's Association have taken some of our planter boxes and wishing wells to the State Conference where they will be raffled.

Bruce, one of our more gifted shedders, thinking outside the square, has created a rocking bull called "Bruce" and rocking tractor called "Coll". These novel creations will be raffled off at the Brunswick Show. Of course, we will be open for the show doing our giant sausage sizzle and providing the cheapest feed on the show grounds. Come over and say hello.

## BRUNSWICK PUB QUIZ.

Chevonne Greenhalgh

Wednesday 19th July saw a return of the Pub Quiz at Brunswick Junction Tavern. A warm welcome was received by locals who had brushed up on their knowledge and braved the cold weather to spend a few hours with the quizmaster host Brunswick CRC, with the goal of taking home the title of the winner!

The quiz consisted of the normal rounds but this time included a music round which everyone seemed to thoroughly enjoy. The tables consisted of up to 4 per team and everyone was encouraged to bring their own snacks with the bar open for drinks.

We would like to encourage local groups within the Brunswick area to take up the opportunity to host a quiz night. Putting on this event on a monthly basis, it is an excellent opportunity for organisations to be able to connect and promote themselves.

If you would like assistance in hosting a Quiz, please do not hesitate to contact Brunswick Community Resource Centre on 9726 1452 or email us: [brunswickjunctioncrc@gmail.com](mailto:brunswickjunctioncrc@gmail.com)

Residents aged 55 and older are encouraged to complete the newly launched Creating Age Friendly Communities Survey.

The survey is designed to help the Shire better understand demographic profiles, accommodation requirements and community service needs.

Information gathered will be used to inform and support businesses and organisations who currently are or intend to serve older residents. These organisations include residential aged care providers, support services and government.

Residents can complete the survey online or in-person at a Shire Pop Up on the below dates:

Monday, 10 July at Australind Library between 10am - 11.30am.

Wednesday 19 July at Leschenault Leisure Centre Players' Lounge between 11.30am - 1pm.

Thursday 3 August at Brunswick Community Resource Centre between 9.15am - 11am.

Tuesday 15 August at Harvey Community Resource Centre between 10am - 11.30am.

Completing the survey will take approximately 5-10 minutes.

## SHOWTIME AT BRUNSWICK KIDZ CLUB

Brunswick Resource Centre's After-School Kidz Club returns again this term, but with a difference! Under the theme of 'SHOWTIME!' the sessions will be aimed at helping children develop 2 or 3 different ideas in the design and creation of entries for the Brunswick AG Show 2023.

Working with the show's theme of 'Farm to Fridge', the children will brainstorm ideas for the different categories of interest, these will then be developed, drawing up a plan and identifying resources and materials required. In the design process, they will need to figure out, for example, how big the finished project will be, to fit the specifications of the chosen category. While entering a design project into the show, doesn't guarantee a win, the experience of being part of the Show and the process of planning and preparing is undeniably valuable. Allowing the children the time to figure out problems and to overcome challenges is key in developing resilience and confidence with the value of seeing a project through from start to finish.

**BRUNSWICK KIDZ CLUB**

**THURSDAYS 3PM TO 4.15PM**

Term 3 Theme:  
**"It's Showtime!"**

Design and create a winning entry into the Brunswick Show

Each week we will explore and make an item to enter into the children's competition categories for the Show!

Government of Western Australia  
Department of Mines, Industry Regulation and Safety

Keep kids safe and warm this winter - Senior Regional Officer for the South West, Annetta Bellingeri

During the chilly months, it's important to keep our families warm while also staying vigilant to the potential dangers of commonly-used heating products.

Children are particularly vulnerable to burns and accidents from 'winter warmers' such as hot water bottles, open flames, heaters and loose-fitting sleepwear.

While hot water bottles are a cheap and popular way to fend off the cold, they can cause serious burns if not used correctly. According to Perth Children's Hospital data, 8 children presented to its emergency department during 2020/2022 with injuries relating to hot water bottles. These should be filled with hot tap water (never boiling water) and always covered with a fitted cover or wrap. Also, as hot water bottles can deteriorate with age, it's smart to keep an eye on the 'daisy wheel' date marking that shows when the product was made. Better yet, buy a new hot water bottle every year, because even though they might look in good condition on the outside, they could be hiding damage internally.

Annual hospital admissions resulting from burns sustained from children's clothing catching fire from open heat sources like fireplaces and heaters are another cause of concern and risk. Pyjamas and dressing gowns must display a fire hazard label, although nightwear considered a low fire hazard, can still be flammable. Earlier this year, a range of Target Australia kids' pyjamas were recalled for being too loose-fitting, meaning they posed a fire risk if exposed to a heat or flame source. When shopping for kids' clothes, caution is recommended when buying online or while on holidays as they may not be subject to Australian mandatory safety standards.

If your child does suffer a burn, the advice from Kidsafe Australia is to apply cool running water to the injury for 20 minutes. Products like ice, oil or butter should never be placed on a burn and any jewelry or clothing should be removed unless stuck to the skin.

Simple precautions such as checking for recalls on all products, following safety guidelines, and being vigilant about safety can go a long way in protecting your family and home. Find more winter safety tips at [www.productsafety.gov.au/wellwinter](http://www.productsafety.gov.au/wellwinter) and learn more about burns prevention at [www.kidsafe.com.au](http://www.kidsafe.com.au)

## LIONS CLUB

Ron Arkwright.

On Sunday, 2nd of July the Brunswick Junction Lions Club held its 53rd annual Installation of Directors and Committee members for the coming period 2023/2024.

Around 60 guests, being club members and partners, gathered for an early morning Breakfast Function at the Sanctuary Golf Club Bunbury.

As the current President of the Brunswick Lions Club, I felt that after two and a half years the time had come to hand the reins to a younger and more adaptable President .

Fortunately, for the club, a person of such qualities put his hand up and is prepared to take on the role and commitment

Craig Klumpp, a well known local, is now the President of the Brunswick Lions Club, the rest of the team are just about the same members who carried the club through the last 2023 term .

The Brunswick Lions Club is responsible for a list of many community projects and provides financial support to many organisations.

Local projects include: the Settlers Wall, the renovation and improvement of the War Memorial, the Blue Tree in Clifton Rd in support of mental health and our very own Flag Pole in the centre of town .

Support to many organisations such as providing bursaries to local schools, Save Sight International, the Life Cycle for Canteen, Food Bank and many many more.

Being a member of the Brunswick Lions is not all hard work, for it's been an absolute pleasure being their President for the last two and a half years.

The club is a place of good fellowship a place to make friends.

Meetings are held twice a month, over a drink at the bar or sharing a meal with great blokes who like a laugh .

The ladies also get involved, for although the Brunswick Lions is a men's club, the ladies are invited to join us on many occasion during Ladies Nights

Becoming a Lions member is easy, just turn up at the clubs meeting hall, or come with a mate who is an existing member or simply ring the Secretary on 0429197060.

How does a rancher keep track of his cattle?  
With a cow-culator.

How do you tell the difference between a bull and a cow?  
It is either one or the udder!

What do you call a sleeping bull?  
A bulldozer.

## PHYSICAL ACTIVITY AND YOUR HEART HEALTH

Physical activity and exercise can benefit your heart, body and mind.

Regular physical activity is one of the best things you can do for your heart health. Increasing your physical activity from as little as 10 minutes a day to the Australian Government's recommended 30 to 45 minutes a day, five or more days of the week can help reduce your risk of heart disease and heart attacks. It can also prevent and manage many conditions and diseases, including some cancers, type 2 diabetes and depression.

### What exactly is 'physical activity'?

**Physical activity** – Daily actions, such as walking to the shops, taking the stairs, getting off public transport and walking to your destination.

**Exercise** – Organised activities and sports, such as swimming, cycling, yoga and walking groups (e.g. Heart Foundation Walking Program).

You can increase your daily physical activity without joining a gym or even breaking a sweat. The good news is you can simply do more of the activities you enjoy every day, like walking.

Why is physical activity and exercise good for your heart?

Building up your physical activity to the recommended level has many benefits. By making your heart work a little harder, you can cut your risk of heart disease by a third – regardless of your age, gender, income or where you live.

Learn more about the benefits of physical activity

### How does physical activity help your body?

-Physical activity is good medicine. It can help reduce heart disease risk factors, such as high blood pressure and cholesterol. If you have heart disease, physical activity can help you manage the condition.

-Increased activity can help you manage your weight, which also has many benefits including lowering your risk of type 2 diabetes and some forms of cancer. Being a healthy weight also reduces the risk factor for heart disease.

-Regular exercise can help your bones and muscles become stronger.

### How does physical activity help your mind?

**Immediate results** - If you take a short, brisk walk you may feel more refreshed and relaxed. You may also find this benefit will help motivate you to walk more often and for longer.

**Improved wellbeing** - Being active can help ease anxiety and depression, especially when done in natural environments like parks and gardens. You may find yourself feeling happier, more confident, and sleeping better.

**More opportunities to socialise** - Being physically active is a great way to connect with others and build a sense of community. As you participate in more activities and exercise you might find yourself socialising more often with friends and family or perhaps joining an exercise class or sports team.

### KEY TAKEAWAYS

- Being physically active includes everyday movements (e.g. walking) and exercise.
- Regular physical activity has many benefits for your health, both now and in the future.
- Simply doing activities you enjoy is a great way to start on the path to better heart health.
- As little as 10 minutes of physical activity a day can be good for your health.
- You can increase your physical activity at any age and just about any level of fitness.

## Brunswick Walking Group

In June, the Brunswick Walking Group explored Crooked Brook Forest, extending their Thursday walks beyond Brunswick

email: [info@redzproductions.com.au](mailto:info@redzproductions.com.au)

**Venomous Reptile Relocation Training.**

Reds Productions is very pleased to introduce this great training package.

The advantages of this training is that instead of the traditional methods of removing a problem reptile which invariably resulted in its death, our training enables participants to complete the short course with sufficient knowledge and understanding to be able to approach a snake or lizard, safely recover and remove it and then release it back into the wild without harming it, staff or contractors and in an environmentally conscious way. The course is completed in a day.

The training can be conducted at the Zoo in Pinjarra but can easily be taken to remote sites, business's and other locations as per requirements during which participants are tutored in understanding the psychology of snakes, recognition of an assortment of reptiles and finally set up with appropriate handling gear (Hook and bag) and tutored through catching, handling and then releasing live, venomous reptiles (snakes).

This training was previously provided by Brian Bush, a very well known and knowledgeable WA Herpetologist. Having now retired, Brian has passed the business onto Reds Productions a part of the Redz Zoo business at Pinjarra and we are deploying our training to both the public and the resource sector in WA.

If this sounds like something that might interest you please get in touch.

Participants will be trained how to safely remove venomous and non venomous reptiles onsite as per DBCA requirements and most resource site policies and procedures.

**CAN YOU FIND 1 HOUR A WEEK TO HELP PRIMARY SCHOOL KIDS READ?**

We need volunteers to join the reading support program

If you can read and want to help make a difference in a child's life, we need you!

- Sign on for as often and as long as you choose - even go on holidays and then come back to HU4K!
- **You choose the day you'll be available**
- We'll help you get a Working With Children Card - no formal training needed
- **Come alone or with a friend, relative, neighbour or colleague - men and women needed**
- Lots of opportunities to make new friends and celebrate your successes with other HU4K volunteers over coffee
- **If you enjoy working with young children and want to help a young child to succeed - All it will cost, is your time**

Talk to Jan on 0499 240 371 or email [handsup4kids@gmail.com](mailto:handsup4kids@gmail.com) about getting involved.

More information on [www.handsup4kids.org.au](http://www.handsup4kids.org.au)

## SOUTH WEST SCIENCE FAIR IS BACK!

- **When:** 9am – 4pm, Saturday 19 August 2023 (free entry)

- **Where:** Bunbury Public Library, Parkfield Street

Join us at South West Science Fair 2023, a FREE family friendly community event filled with science themed mysteries. Solve a robbery, make some slime or visit the forensics lab, either way you are bound to discover or learn something new!

South West Science Fair brings multiple exhibitors from around WA come together at Bunbury Public Library on Saturday 19 August to bring to you a variety of interactive and hands-on science themed activities, fun and learning. There's something for everyone. Exhibitors will engage visitors with a multitude of exciting and mind-blowing hands-on STEM (science, technology, engineering, math) based activities and demonstrations throughout this event. Activities will comprise of at least one STEM element.

This year's science fair features demonstrations and activities across both the upper and lower levels of the library building in; forensic science, biology, zoology, earth sciences, chemistry, technology, herpetology and more. Without giving too much away (it's a secret!) some of the activities this year include; vortex cannons, gravity defying and chemical reaction experiments with Supersonic Science, pat a snake with Discover Deadly or learn about animal biology with Nearer to Nature. There will be 3D printing, robotics and competitions galore. We even need you to help us solve a robbery in the forensics lab!

To end this years science fair, the Wearable Art Festival's showcase and parade will take place from 2pm. Here you can watch the community fashion parade and sculpture showcase - all of which has been made by members of the community using FOGO, recycled and repurposed materials. See below for more information or to register your wearable art or sculpture into the competition before 28 July for your chance to win a share of \$1,500 in prizes! Various competitions and spot prizes and competitions will be available throughout the duration of this event. Bonus points for those who dress up in science-themed costumes! Tickets are not required to attend South West Science Fair or the Wearable Art Festival Finalists Showcase and Parade. Simply attend Bunbury Public Library on Parkfield Street anytime between 9am and 4pm on Saturday 19 August 2023. Wearable Art Parade begins at 2pm. Note: Bookings are essential for the Supersonic Science Workshops and Forensics Lab Workshops require bookings.

What did the mama cow say to the calf?  
It's pasture bedtime!
